

The **Environmental Artworks Foundation of Alberta (EAFA)** invites you to submit a proposal for a project your school is doing to reduce its environmental impact.

EAFA is offering two grants to a maximum of \$1500 per grant. The grants may be used for projects such as solar panels or a compost system.

To qualify for these grants EAFA will need;

- 1) a complete description of the project including the impact;
- 2) a project time line that includes a proposed completion date and;
- 3) a budget with a list of all of financial contributors.

We ask that the proposal be no more that than 3 pages.

The EAFA contribution grant cannot exceed more than one third (1/3) of the total value of the project.

EAFA will require a proof of project completion, submitted no later than 30 days after project completion.

Entries must be post marked no later than March 15, 2012
